▼ −9,103 (-39%) Jun → Oct

ENG. PER POST

11

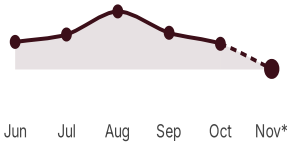

▼ −37.1 (-7%) Jun → Oct

ENGAGEMENT RATE

0.01%

▼ −0.03 pp (-7%) Jun → Oct

Between Jun and Oct (full months): **posts** from 44 to 29 ▼, **total engagement** from 23,542 to 14,439 ▼, **eng. per post** from 535 to 497.9 ▼, **engagement rate** from 0.47% to 0.43% ▼.

About these metrics · KPIs and charts are calculated on **regular posts** only. Outliers (engagement far above the rest: more than the third quartile + 3 times the interquartile range, usually paid media or an isolated viral) are excluded so they don't distort trends, and are listed separately under Posts. Engagement = likes + comments. Engagement rate = average engagement per post ÷ followers.

PERFORMANCE

CADENCE, FORMATS AND POSTING TIMES

When and how the account posts, and which combinations drive the most interaction. Times in Bogotá time zone.

PERFORMANCE SUMMARY

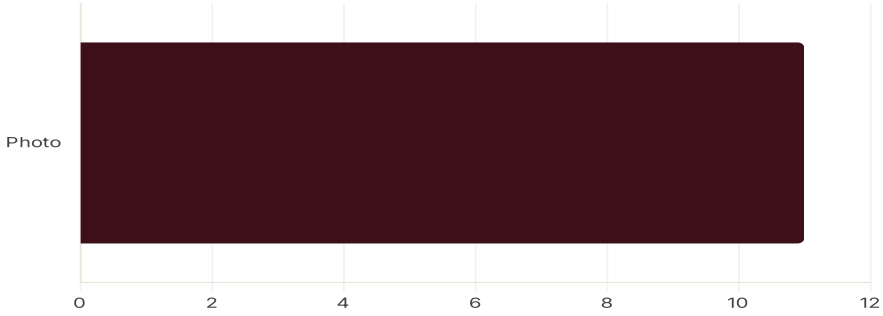

- **Cadence:** 0.2 posts per week on average, with 5 weeks without posts.
- **Format:** the best-performing format is the **photo** (11 average engagement), and it is also the most published.
- **Day:** Sundays perform best (11 average engagement).
- **Time:** the best response comes at 12:00, which is also the most used time.
- **Best window:** Sun at 12:00 (11 average interactions, 1 post).

WEEKLY POSTING VOLUME

> Average cadence of **0.2 posts per week**, peaking at 1 in Nov W1 (week of 26/10). 5 weeks without posts.

AVERAGE ENGAGEMENT BY FORMAT

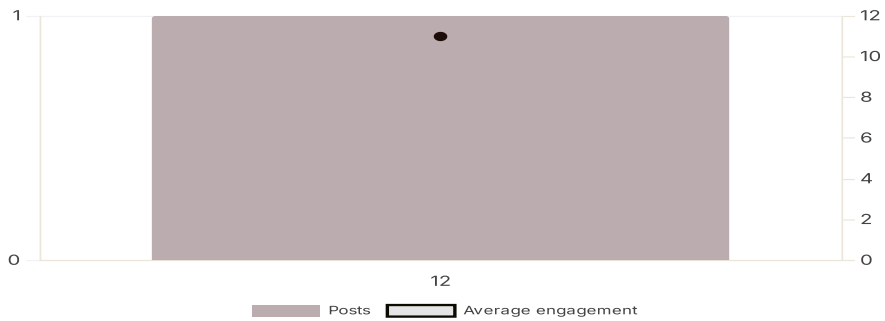

BEST DAY OF THE WEEK

Sundays are the best day (11 average engagement, 1 post); Sundays drop to 11.

POSTS AND ENGAGEMENT BY HOUR
